EXPERIENCE

Full Stack Developer

Infynect Labs Private Limited - Bangalore, Karnataka

Dec 2022 – Jan 2025

- Developed and maintained 3+ web applications Vue.js, React.js and Node.js
- Enhanced UI responsiveness and component performance across platforms.
- Optimized application performance by 20%, enhancing load times and UX.
- Collaborated with cross-functional teams to implement reusable design systems and UI components.

Key Projects

Hepi (Subscription Management & LG Smart TV App) :

At Infynect Labs, I was instrumental in building the subscription management module for Hepi, focusing on secure and scalable integration with third-party APIs. I developed dynamic front-end components using Vue.js, enabling real-time updates and a smoother user experience across platforms. I played a key role in engineering an LG Smart TV application using HTML, CSS, JavaScript, and Rivets.js, enhancing the viewing experience. Additionally, I replicated the design and functionality of the Android-based Set-Top Box (STB) application, optimizing UI/UX for LG WebOS to improve responsiveness and navigation.
